WINTER
2022-23

Dear Joseph and all faithful friends partners from Black Mountain Baptist Church!

Greetings in the name of our Lord and Savior Jesus Christ! We are grateful to you for your faithful prayers and generous support of our ministry. Our team of AFCI Ukraine is active with our focus on revival in the church, training for the church, and evangelism through the church.

It is hard to believe that it is already one year since war came to our country. In the end of winter, on February, 24 our neighboring country started full-scale war against our country. In this difficult and challenging time for all of us we trust God and move on as we can, following God's leadership and doing the winter ministries. And God is with us as He promised. Before we share what God was doing in and through us I just want to say that we are fine and well and serve our Lord helping refugees in our area and in other places.

Humanitarian and spiritual help

By the grace and provision of God and because of faithful help and support of partners like you we still have opportunity to serve thousands of refugees who came to our city trying to escape danger and rescuing their families. Most of them lost all their possessions, many of them lost their loved ones, relatives or friends. They stay here hoping to return back soon but can't until war will end.

They are so grateful every time they come for help. So many of them never had any connections with a church or Evangelical Christians and are amazed how welcome, friendly and helpful are people they meet at the church. Often they say that only churches still help them to get food and other necessary things.

Evangelistic services

Along with humanitarian aid we provide spiritual help. We invite refugees to attend our evangelistic meetings where we preach the Gospel of salvation through faith in Jesus Christ. Later with most of them we speak personally and pray with and for many of them. For last year about twenty of them prayed asking Jesus for forgiveness and salvation.

Christmas services for children

This Christmas we decided to make special programs for children from refugee families. For all of them this war changed their lives completely, many of them saw so many terrible things. And not only on television but personally.

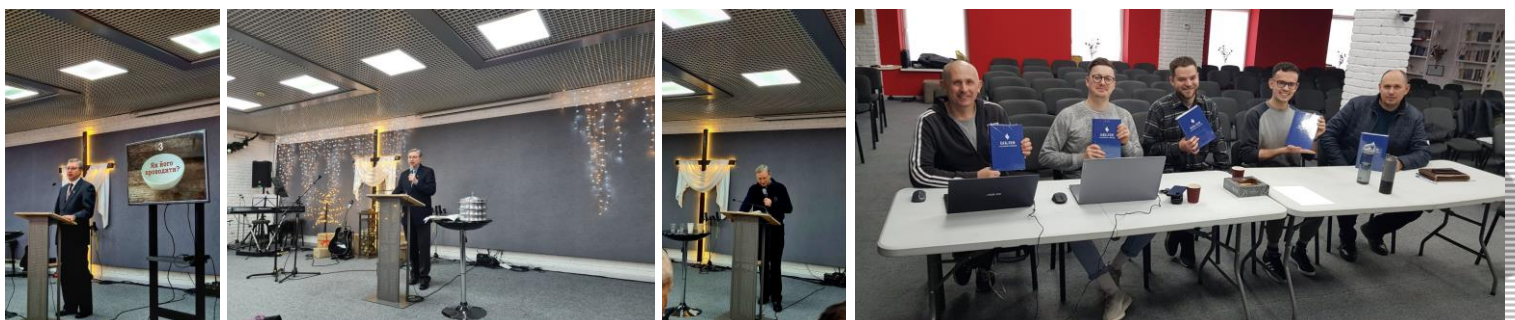

So we wanted to do something special for them. We invited them to our church and presented Christmas story. Since many of them never attended church and didn't hear true message of Jesus coming to this world we asked a team of Sunday school to present Christmas story in clear and simple words. After the meeting each child got Christmas present. Everyone was happy and joyful.

Also we did two other Christmas services for children, one was in our church and children from our Sunday school participated in it. Then we went to orphanage and presented Christmas gifts to all children there.

Preaching and teaching ministry

Understanding that in these hard times it is difficult to overcome all struggles and hardships without knowledge of God's Word I continue my ministry of preaching and teaching of the Bible. Along with preaching at the church I participate in teaching of those who carry God's Word. During our last session I was able to present participants first Ukrainian Bible with commentaries.

We'll be very grateful if you join us in prayer for our country and will continue to support our ministry to refugees

Till the whole world knows,
